

SR Subjects – Assignment 2

From the first assignment group work, perform improvement for the requirements document on the assignment 1, the requirements are described in section "A. Requirements for Requirements Document"

A. Requirements for User Requirement Document (Assignment 2 Report)

Select another group in your class, then send the result of Assignment 1 to them. Your friends will have to review the documents, and they will have to deliver to lecturer their review comments from reviewing and inspecting your document. They will also send the result back to your group. Base on those comments, you need to perform requirement management process by recording the change request and update your document.

Use template **Template-Requirements-Traceability-Matrix-2015-v001.xlsx[1]** for creating Requirements Traceability Matrix Document. Please read the first sheet [Usage Guide] for more information.

The delivered Traceability Matrix document must have the following section :

1. Front-page introduction on sheet Front Page
2. A Brief of project's product services
3. Functional Requirements
4. Non-functional requirements
5. Business Rules

Notes

- 1) The deliverable documents of assignment 2 must include:
 - a. Review/Inspection Logs for your friend group
 - b. Requirements documents in MS Word format (original version)
 - c. Requirements Traceability Matrix must be in Excel
 - d. Requirements documents in MS Word format (updated version)
- 2) Documents should be zipped in one file before uploading to CMS. The file name must follow convention **ClassName_Topic#_TopicName.zip** e.g. SE0421_Topic6_JobSearching.zip
